

Members' Interests

Surname Search is a service offered by BIFHSGO to aid its members in their genealogical searches. Through publication of their key names and locations of interest in the quarterly publication *Anglo Celtic Roots*, and their surname interests and locations on the BIFHSGO Web Site, they may seek others with the same interests. This form is for the use of members who have not submitted their names of interest before, or who are in search of new names.

Time Period. The + sign means "and any period afterward"; i.e. 1750+ means 1750 and any period following. "Pre" before a year means any period prior to that year. Please use official two-letter postal abbreviations for states and provinces and three-letter Pre-1974 Chapman Codes for UK counties (available on the BIFHSGO web-site).

Occasionally, space in *Anglo-Celtic Roots* may be restricted, and publication may be limited to the first six names on the list. Names that are removed due to space limitations will be published in future issues of ACR.
