

10:45–12:00 Session 6A

Speaker: Diahan Southard — *A Day Out with Your DNA*

Chair: Lynda Gibson

As more and more companies crop up trying to capitalize on this era of personal genomics, it can be difficult to decide how to proceed with your own DNA testing experience. In this lecture Diahan will help you understand the value of your raw data file, as well as explain different options for using that file not only to further your genetic genealogy pursuits but perhaps to explore your health as well.
