

**Linda Reid**, a retired librarian, has been researching her British and Irish roots for 35 years. She did her first autosomal DNA test in 2011 and with it her genealogical research took on a new life. She now administers over 50 Family Finder kits at *Family Tree DNA*, three at *Ancestry DNA*, three at *23andMe* and many transfers at *MyHeritage*, along with Y-DNA and mitochondrial DNA kits. Linda also facilitates the Advanced Genetic Genealogy Special Interest Group of the Ontario Genealogical Society's Toronto Branch, teaches genealogy courses there, and speaks at conferences and to genealogy groups in southern Ontario.
